

ADVENTURE TO TANZANIA

Have you ever dreamed of traveling to far off places, helping those in need, or seeing exotic animals in their natural habitat? Now you can do it all in one trip with The Outreach Program!

As part of Project Tumaini, we are organizing service trips to Tanzania to install Waterpoint Systems and provide clean water to students in Tanzania!

How does it work?

The Outreach Program has over 20 years experience of leading service trips. We will handle all of the planning to make sure that you have the trip of a lifetime! The cost varies per trip, but we can help you set up a fundraiser so that you can raise money for your trip.

Make your trip even more impactful by fundraising to sponsor one of the Waterpoint systems we will install!

What is Included?

- Roundtrip Airfare
- In country transportation
- Food and accomodations
- 5-6 days working in schools and with The Portadoc.
- 2 Day Safari to National Parks!
