INSTITUTE FOR
ECONOMICS
& PEACE

NEGATIVE PEACE

Absence of direct violence. Absence of fear of violence.

GLOBAL PEACE INDEX

POSITIVE PEACE

Attitudes, institutions, and structures that sustain peace.

POSITIVE PEACE INDEX

Eight Pillars

Positive Peace

provides the optimal environment for human potential to flourish

Projects should investigate how to affect **all eight** at the same time

High Levels of Human Capital

Macro-Level

- Wide scale campaigns to lift hygiene practices
- Industry shifts
 - Manufactures and engineers being repurposed for hospital equipment and medical supplies
 - Upskilling of medical and allied health professionals

Micro-Level

- People adopt improved hygiene practices
- Individuals adapt to new work routines and adopt new technologies

Environmental Justice and Urban Heat Islands

"Intra-urban" heat islands are due to uneven distribution of heat-absorbing trees and greenery. Differences result from disparities in community planning and development.

Studies of 10 million students who took PSATs showed that differences in heat exposure explained 5 percent of the racial achievement gap. Similar effects were noted in 3rd to 8th graders.

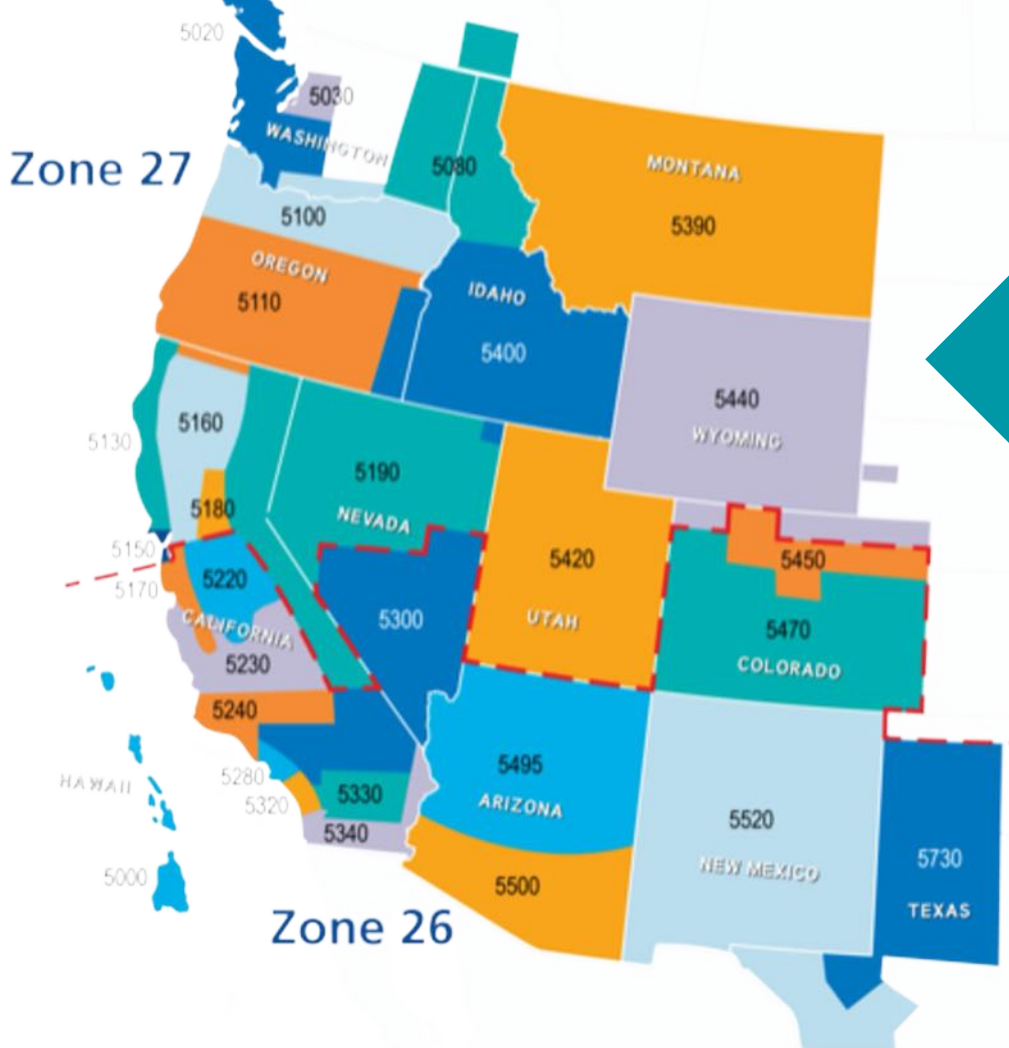

Eight Pillars Practice – 30 Mins

Facilitation with Google Jamboard:

- 5 mins: individual introductions
- 5 mins: Urban Heat Islands – review of 15 factoids
- 5 mins: “Stamping” for *significance* and *resonance*
- 5 mins: Collective agreement -
 - 3 for significance
 - 3 for resonance
- 10 mins: project idea brainstorming
- Return to main room: brief reports from select facilitators
