Rotary and Peace

Rotary’s areas of focus

Rotary’s strategic partnership with the Institute for Economics & Peace

Rotary’s grassroots work in communities around the globe

IEP’s empirical research on the attitudes, institutions, and structures of peaceful societies

Rotary Positive Peace Activator Program
Core Content: Jim Halderman
NEGATIVE PEACE
Absence of direct violence. Absence of fear of violence.

POSITIVE PEACE
Attitudes, institutions, and structures that sustain peace.

GLOBAL PEACE INDEX

POSITIVE PEACE INDEX
Positive Peace provides the optimal environment for human potential to flourish.

Projects should investigate how to affect all eight at the same time.
High Levels of Human Capital

**Macro-Level**
- Wide scale campaigns to lift hygiene practices
- Industry shifts
  - Manufactures and engineers being repurposed for hospital equipment and medical supplies
  - Upskilling of medical and allied health professionals

**Micro-Level**
- People adopt improved hygiene practices
- Individuals adapt to new work routines and adopt new technologies

Citizen Participation Toolkit
"Intra-urban” heat islands are due to uneven distribution of heat-absorbing trees and greenery. Differences result from disparities in community planning and development.

Studies of 10 million students who took PSATs showed that differences in heat exposure explained 5 percent of the racial achievement gap. Similar effects were noted in 3rd to 8th graders.
