

## Early Detection Saves Lives!

The Cancer Association of Havasu invites you to participate in the **21st Annual Breast Cancer Awareness Walk & Fun Run**.

Where breast cancer is concerned, early detection has proven to provide the highest chance of survival. When the disease is confined to the breast, the five-year survival rate is over 95%.

This annual event is a very significant source of funding for our low-cost mammography program.

We urge you to gather donations over and above your cost of registration. Sign up with your friends, form a team, gather pledges to help raise money for mammograms and other cancer-related services in Lake Havasu. Taking these additional steps will enhance the impact you make by participating in this year's Breast Cancer Awareness Walk and Fun Run. If you need additional space for pledges, a downloadable form is available on our website:
