

Using these resources and consulting with experts early in the planning process, enables clubs to improve the quality of projects and global grants. Your District’s International Service Chair can help identify prospective partners, subject matter experts comprised of local/regional members of the Rotary family, and other resources to increase the quality, impact, and sustainability of global grants. Better projects will make your club more attractive to new members. Get members involved as planners and volunteers. Once they have seen the impact of a successful service project, they will be inspired to promote Rotary, the Rotary Foundation, and your club.
