REALTOR® SAFETY PROGRAM

NATIONAL
ASSOCIATION of
REALTORS®

REALTOR® Safety

Real Estate, Safety, and You Background

Knowledge. Awareness. Empowerment. These are the core components of REALTOR® Safety. And helping our members understand the risks they face can mean the difference between life and death.

To help remind us to know the dangers we face every day, to be aware of our surroundings, to empower ourselves with precautions and preparations so that we can avoid risky situations, and as part of NAR's ongoing efforts to keep our members safe, we dedicate September as REALTOR® Safety Month. While this month helps remind us of the importance of REALTOR® Safety, NAR has also developed materials for use throughout year, including:

New webinars on REALTOR® Safety, presented by industry experts.
Weekly social media messaging for Associations to easily share with members.

Expansion of safety materials and resources for Associations, brokerages and members.

Customize Your Safety Strategy

Many of the resources provided here are meant for AEs and brokerage offices. However, you can develop your own safety strategy if you work in a different office setting. The full safety presentation can be broken out into three separate sessions, and you can add the banner ads, widgets and other content to your home page. Let other members know about the free webinars, videos, forms and more.

If you need additional assistance or suggestions, e-mail safety@realtors.org.

The real estate professional experienced a situation that made them fear for their personal safety or safety of their personal information

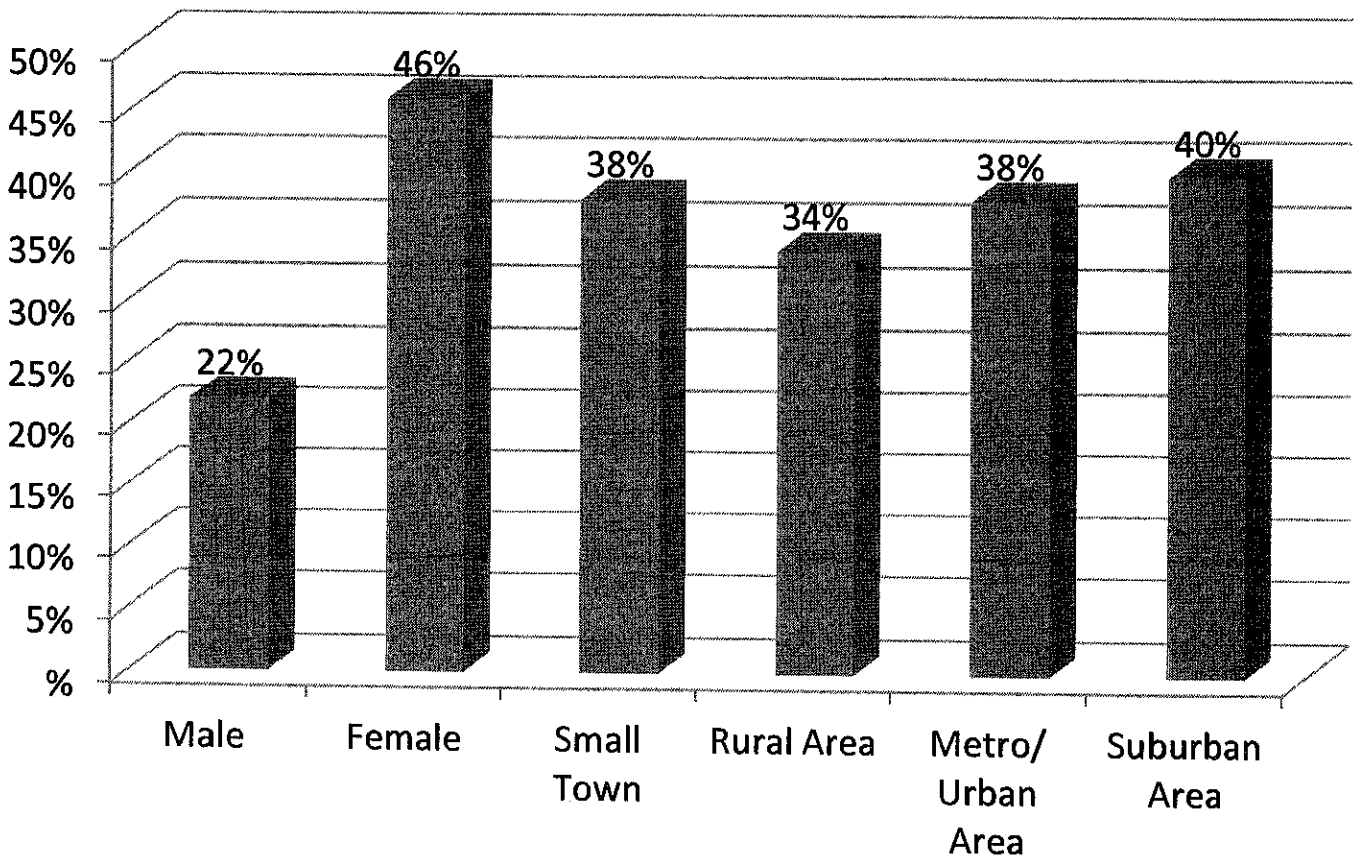

Common situations that caused fear: open houses, vacant homes/model homes, properties that were unlocked or unsecured, properties in remote areas

The real estate professional experienced a situation that made them fear for their personal safety or safety of their personal information

This was more common among women and real estate professionals in suburban areas.

The REALTOR[®] Was a Victim of a Crime (violent or not) While Working as a Real Estate Professional

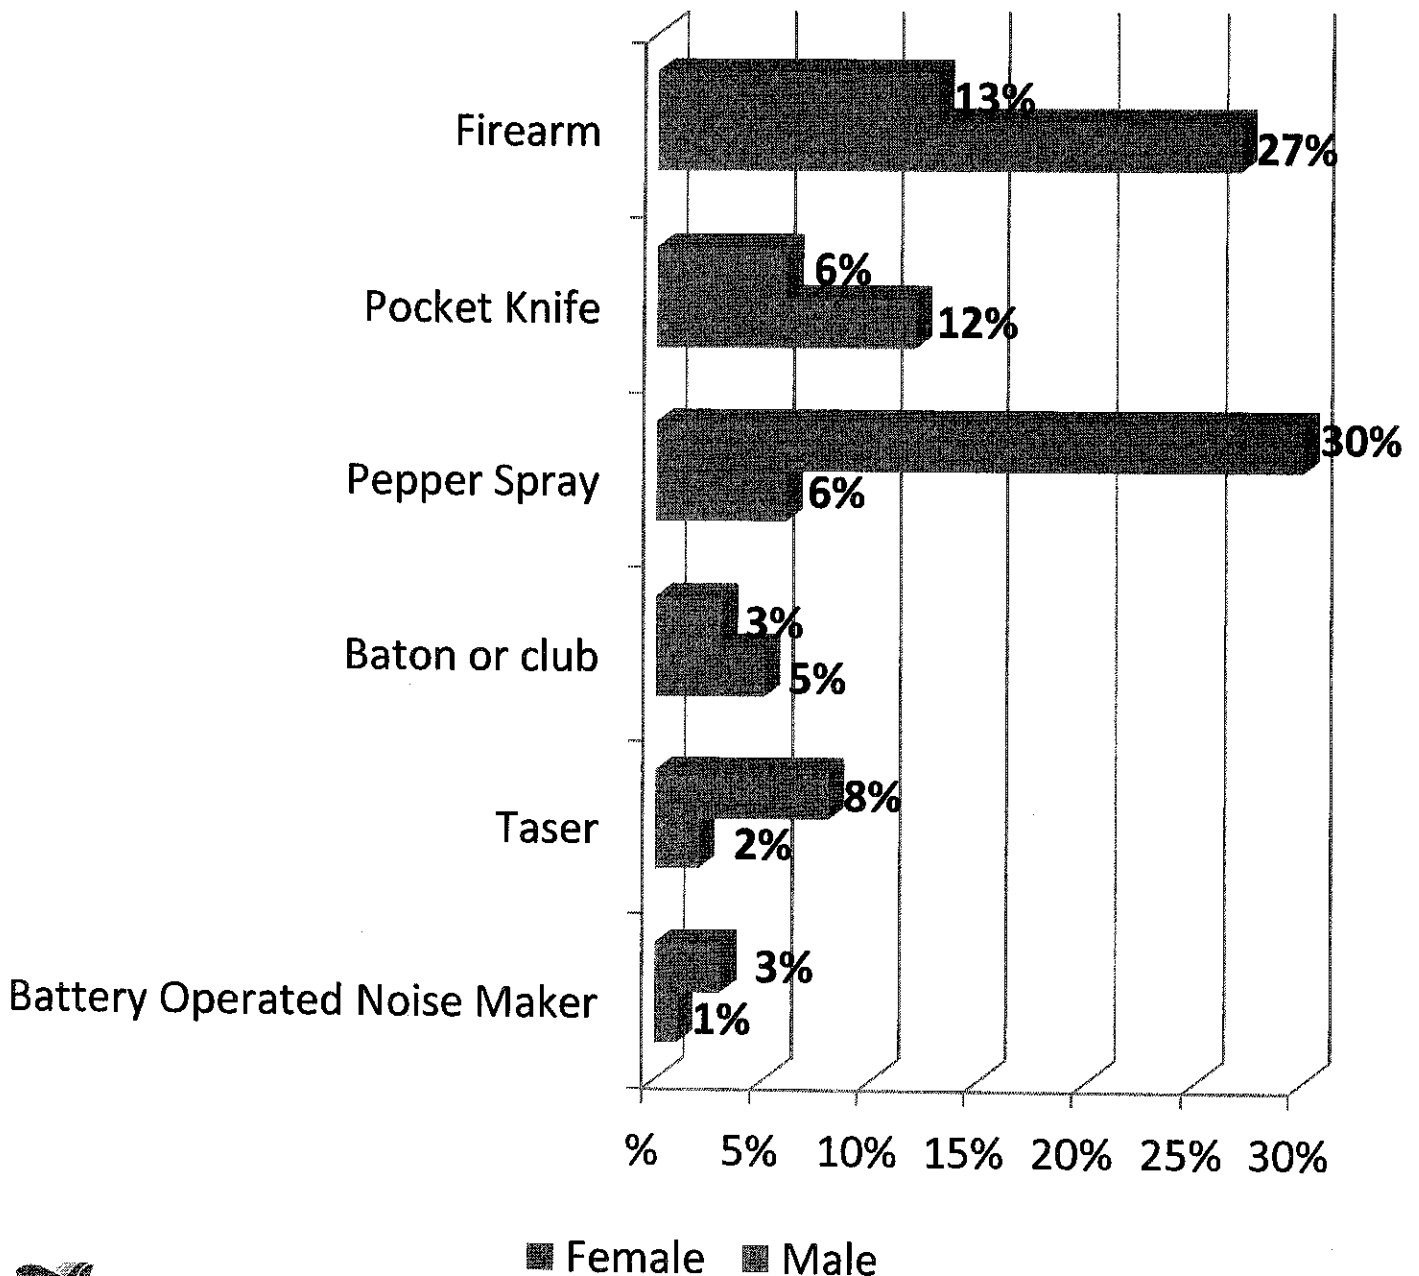

Self-Defense Weapons

Some members choose to carry self-defense weapons. The most common self-defense weapons carried are:

Self-Defense Weapons

Men and women are equally likely to carry a self-defense weapon, but the type of weapon differs. The common types of self-defense weapons carried:

Use of Smart Phone Safety Apps

42% of members use a smart phone safety app to track whereabouts and alert colleagues in case of an emergency.

Most Commonly Used Smart Phone Apps:	
Find My iPhone feature	27%
GPS Phone Track for Android	5
Life 360	3
HomeSnap Pro	2
bSafe	1
Glympse	1
React Mobile	1
Real Alert	1
