

Louisa Tripp
District Governor 2015-16
District 7850

Louisa Tripp has been a computer "specialist" for more than 30 years working first as a developer and eventually becoming the Director of Computer Services at Norwich University. Currently working as an Oracle database and PeopleSoft administrator she manages the data and ERP software for the State of Vermont.

While comfortable with computer logic, the support of and investment in people and communities fuels her spirit. In addition to Rotary Service, this energy manifests itself in ringing bells in support of the Salvation Army and traveling to Mexico with eyeglasses with Project Amigo.
