TAKE ACTION TO LIMIT THE TOP SPEED OF
BIG-RIGS ON AMERICAN ROADWAYS

MAKE THREE PHONE CALLS – to the two Senators from Georgia and your Georgia Congressman/woman (phone numbers below) and tell them:

#1 you are tired of the speeding big-rigs on Georgia highways. You are especially concerned for the safety of your loved ones knowing that Georgia is among the states with the most truck crash related fatalities year after year.

#2 you are aware that nearly every one of the biggest trucks have speed limiting (or governing) technology already built in. This has been standard for decades worldwide.

#3 you are aware that the USDOT is working on making use of those speed limiters at a reasonable top speed mandatory. Ask your representatives to contact the USDOT to insist they make getting this done for big-rigs a top priority
