Meeting – July 15, 2019 located at 4150

Regional Health – Kelli McIntosh & Trista Borgwardt

Kelli and Trista are part of the staff that make up the Regional Health Clinical Research team. This includes the Black Hills Cardiovascular Research group as well as the Cancer Care Institute Research department.

Kelli serves as the Operations Manager serving under the Director, Roger DeRaad. She supervises 20 staff members in three locations. Clinical Research – Central Office at 735 Meade Street, Heart and Vascular Institute located at 4150 5th St. and the Cancer Care Institute located at 353 Fairmont Blvd. The research team has a turnover rate of less than 2% and the average years of experience is about ten years. Trista is an RN and works in the Cancer Research Center.

During the 20 years of Clinical Research there have been 179 trials, with 4,025 participants giving them 5,850 years of clinical date with 29,650 visits in the area of Black Hills Cardiovascular Research. The goal is to be able to deliver high-quality care.

Patients in trials, where meds and placebos are used, have access to 24/7 care and have access to staff, meds, and equipment. This is a form of community service and allows the staff to be on the “cutting edge” of their specialty. Also helps in recruiting new medical staff to the specialty areas.
