00 Turbine Dr

*The Rapid City Cosmopolitan Club held a Mingle Monday Meeting at RPM Innovations on Monday September 29, 2025. Thanks go to BOB White for scheduling the tour of the RPM building. We were able to tour the building and see how their 3D printers work.*

# RPM Timeline

# RPM Our Business.

**PROVIDE A COMPLETE DED SOLUTION**

**Our specialized team and years of experience are ready to bring your DED application to reality. RPMI performs manufacturing services by running our laser systems here at RPMI. We are able to support any application, beginning with a one off prototype, part development, repairs, and even production parts. We will work closely with each customer to understand the application and implement all the advantages the DED technology can offer.**

# RPM Our Mission.

**WE PROMISE THE BEST**  
RPMI offers our customers the most capable and versatile DED systems in the world along with exceptional service. Our customers have challenged us to advance the technology to what it is today and we are committed to continually producing laser systems and DED parts that exceed expectations.

# **DED MANUFACTURING SERVICES**

**RPMI offers manufacturing services by using our state of the art laser systems. Our production shop operates 24/7 to deliver quality and rapid turnaround solutions. RPMI is capable handling any application, starting with development and prototyping, all the way to long term production or repair solutions.**

# GRADIENTS

**DED has blown open the door to what is possible with new parts and applications. With multiple powder feeder systems on each laser system, RPMI can create multi-material deposits by selectively mixing or transitioning alloys within a single build. The images below reveal a single blade that comprises Inconel 625, Alloy 230, and Inconel 718 all in one freeform build.**

# Our Quality.

**RPMI is committed to exceeding our customer's expectations in all aspects of our business.**

**Maintaining a robust quality management system is critical to this commitment. RPMI maintains a quality management system that is certified to both the AS9100 and ISO 9001 quality standards providing our customers confidence that we have the processes in place to ensure the highest level of quality. Additionally, RPMI works very closely with our customers to gather relevant information early in the process allowing us to fully understand the customer's needs while at the same time educating our customers on the capabilities and benefits of the services we offer.**

Ti-6Al-4V Structure - 7ft Tall

**RPI**  
**INNOVATIONS, INC.**

A trade show booth for RPK Innovations, Inc. is set up in a room with stone tile flooring. The booth consists of a black table with the company logo and name printed on the front. On the table are several 3D printed parts, including a ring, a small cup, and a larger cylindrical component. To the left of the table is a large, tall, silver 3D printed structure. In the background, there is a dark brown door with a silver handle and a sign that says "Empty Closet". A wooden table with a white cloth is partially visible on the right side of the frame.

The background of the image is a photograph of the Sioux Falls State Capitol building at dusk. The building is a grand, classical-style structure with a prominent central dome and a portico with columns. The sky is a deep blue, and the building's lights are on, creating a warm glow. In the foreground, there are trees and a street with a few cars.
