

Nathan Palmer

Nathan Palmer is a licensed Professional Engineer in Civil Engineering. He received his bachelor's and master's degrees from the University of Arizona with an emphasis in structural engineering after graduating from Coolidge High School.

Born and raised in Arizona, Nathan decided to stay in Arizona after graduate school to work and start a family with his wife Karen. Being close to his immediate family and friends, while giving back to the community that raised him was the deciding factor in his decision to stay.

Since starting his career, Nathan has served on multiple committees and boards as the need presented itself. He has served and volunteered in various capacities with The United Methodist Church, The Greater Phoenix Chinese Christian Church, the Arizona Bridge Technical Committee, 4H, the University of Arizona Alumni Industry Council, the Arizona Association of County Engineers, and recently joined Rotary in 2021.

Nathan takes great pleasure in seeing others succeed and helping them find the talents they have been gifted with.

Nathan and his wife have been blessed with two boys, Jonathan and Logan.
