

# Club and District Support

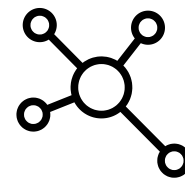

## Policy and Procedure

Utilizing the governance documents of Rotary International, we empower clubs and districts to cultivate innovation, foster growth, and meet the changing needs of the communities we serve.

## Club and District Approvals

We guide you through processes such as: chartering new clubs, adding satellite clubs, and updating club bylaws, to provide a foundation for each club to develop its own unique identity.

## Regional Advising

By facilitating connections between Rotarians and the resources available within our districts, we help you unlock and leverage collaboration with Rotary's global network of 1.4 million members

## ZONE 26
