**ORAL PATHOLOGY:**  
DIAGNOSIS AND MANAGEMENT OF COMMON ORAL LESIONS  
Presented by: Dr. Julien Ghannoum, DMD, FRCDC(c)

**Thursday April 20<sup>th</sup>**

Registration: 5:00 pm - 5:30 pm  
Course: 5:30 pm - 8:30 pm

**EAST COAST ORAL SURGERY**  
**ECOS Education Centre**  
585 Mapleton Rd, Level 0  
Moncton, NB E1G 2K5

**ORAL PATHOLOGY:**  
DIAGNOSIS AND MANAGEMENT OF COMMON ORAL LESIONS

**OVERVIEW:**

The differential diagnosis and management of the most common oral lesions will be reviewed (ulcers, white/red lesions, desquamative gingivitis). A strong emphasis will be placed on clinical features.

**BIOGRAPHY:**

Dr. Ghannoum graduated in oral and maxillofacial pathology from the NY hospital (Cornell University) in 2003. He currently works in Montreal at the Notre-Dame Hospital (CHUM), Maisonneuve-Rosemont Hospital and in a private practice. He is also a part-time researcher at the CHUM Research Center. Dr. Ghannoum has a private oral histopathology laboratory, where he analyses biopsy specimens from dentists and oral surgeons throughout Canada.
