

Integrate Credit Card Payments into your Club or District Site!

We've made it easy to accept online credit card payments through your ClubRunner site, with the Online Payment & eCommerce module. Already integrated with Dues & Billing and MyEventRunner for event registrations, you can choose when and where you wish to allow online payments, or just use the Virtual Terminal to process transactions manually. All funds are deposited immediately into your bank account, and your reports on ClubRunner will automatically reflect payments, so you don't have to consolidate your reports with bank statements anymore!

Pricing for Canadian Customers

The Online Payment module includes everything you need to start processing real time credit card transactions. ClubRunner is proud to partner with **Bambora**, a PCI Level 1 Certified Electronic Payment Processing company that offers simple, reliable, secure and cost effective electronic payment and authentication services.

- ✓ **FREE Web POS/Virtual Terminal:** Eliminate the need to swipe credit cards. Perfect for phone-in/fax/mail-order transactions.
- ✓ **FREE Recurring Billing:** Cut down on late payments, follow-ups and timely manual entry - let the system charge the right amount on the right date.
- ✓ **FREE Batch Processing:** Upload hundreds of credit card transactions at once using a simple upload format. All transactions are processed in real time on Bambora's secure servers.
- ✓ **FREE Online Reporting Tools:** Access a range of downloadable reports. Multiple user logins with varying access levels to view payment activity
- ✓ Customizable email and receipts for customers, and more.

USD Accounts

If you are a US-based club or district, please contact us for USD pricing. If you are a Canadian club that wishes to set up a USD eCommerce account, the discount rate would be 3.6%, and authorization fee at 40 cents per transaction.

ClubRunner takes security seriously. That's why we chose a PCI Level 1 Certified company to be trusted with your transactions, and insisted that all these risk management tools be included in each account:

- ✓ Address Verification Services (AVS)
- ✓ Credit Card and IP Filtering
- ✓ Card Verification Digits
- ✓ Velocity Controls
- ✓ First Anonymous Proxy Detection
- ✓ Valid Referring Web Site
- ✓ Inventory Price Validation
- ✓ PGP Signing and Encryption
- ✓ Internal Controls
